12 May 1955PHOTO INTELLIGENCE MEMORANDUM

"PROLOGUE"

25X1A This memorandum reports the completion of a "crash" project requested by [REDACTED] ORR/S/SO.

The problem required photogrammetric measurements on 100" oblique photography in order to determine the length and orientation of a runway, the length and orientation of a suspected runway, and the relative location of two electronic installations.

The information was supplied directly to the requester.
